

Vega LED Panel Light

Design for general lighting in a complete modular system, the Vega Panel Light aims to save your inventory and cash flow and reduce the lead time for projects. It provides beautiful light distribution with low glare light. It is widely used in office, store, schools, hospital and so on.

Vega LED Panel Light

Features:

- With Louver Reflector design technology
- Less inventory and risk, faster time to projects
- Light efficiency: 150lm/w
- Flicker free driver, Lifud, Tridonic, Philips
- More light: 90% useful lumen in cone 90 (Zonal Lumen)
- Up to 65% energy saving, longer lifespan to old lamps
- Glare free: UGR<16, luminance limites@65°<1000cd/m
- Modular design, with different frames fit all ceiling grid

Materials:

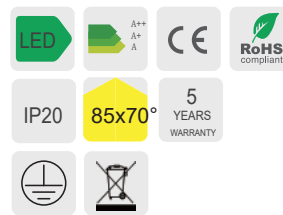

- Body: Iron-sheet
- Cover: PC

Colors:

White

Options:

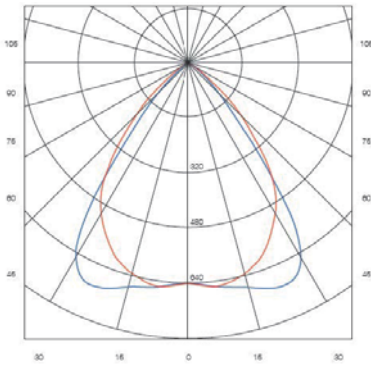

- 1-10V
- DALI
